3rd up GALAXY SONG (Monty Python) v.1-25-2020

intro: C G A7 C F G C

C

Cma7

C6

C

1A. Just remember that you're standing on a planet that's evolving
G

And revolving at nine-hundred miles an hour

G

G7

That's orbiting at 19 miles a second so it's reckoned

C

The sun that is the source of all our power.

C

Cma7

C6

C

1B Now the sun and you and me, and all the stars that we can see
A7 Dm

Are moving a million miles a day

F

C

A7

In an outer spiral arm at forty thousand miles an hour

D7

G7

C

C

Cma7

C6 C

Of the galaxy we call the Milky Way

2A Our galaxy itself contains a hundred million stars,
G

It's a hundred thousand light-years side to side,
G7

It bulges in the middle, sixteen thousand light-years thick,
C

But out by us it's just three thousand light-years wide.

C

Cma7

C6

C

2B We're thirty thousand light-years from galactic central point
A7 Dm

We go 'round every two hundred million years,

F

C

A7

And our galaxy itself is one of millions of billions in this
D7 G7 C

Amazing and Expanding Universe!

INSTRUMENTAL VERSE

NO WALK DOWN

3A The universe itself keeps on expanding and expanding
G

In all of the directions it can whiz,

G7

As fast as it can go, the speed of light, y'know,

C

Twelve million miles a minute, and that's the fastest speed there is,

Mo

C

Cma7

C6

C

3B So remember when you're feeling very small and insecure

Dm

How amazingly unlikely is your birth,

F

C

A7

And pray that there's intelligent life somewhere up in space,

D7

G7

C

Just in case there's not enough down here on earth!

C

A7

4A 3B And pray that there's intelligent life somewhere up in space (Harmonica)

JAN

D7

G7

C

G7

C

(Just in) case there's not enough down here on earth!
